

Request for membership in the

OPEN SOURCE AUTOMATION  
DEVELOPMENT LAB (OSADL) eG

(Name, company name, address and authorized representative of the future member)

hereby requests unrestricted membership in the Open Source Automation Development Lab eG on \_\_\_/\_\_\_/\_\_\_\_, and promises to pay the statutory membership fees (see appendix on the liability for contributions).

The new member is aware that membership is not possible without full acknowledgement of the liability for contributions of an OSADL eG member.

If the Board of Management accepts this application within one month after receipt, the member promises to meet his or her obligations arising from the articles of incorporation. In particular, the member promises to purchase \_\_\_\_\_ shares at € 1.000 each.

(Location, date), (name of the signatory and representative)

## Liability for contributions of an OSADL eG member

Each member of the OSADL eG promises to pay € 8.000 per acquired share each business year for the first three shares for the period of his or her membership.

The payment will become due at the start of the business year on January 1 of each year. If a member joins during an ongoing business year, the payments will be shortened by 1/12 for each month of the business year before the member joined.

Members with a single share are bronze members, members with two shares are silver members, and members with three or more shares are gold members.

The amount of the required contribution can be adjusted by the shareholders' meeting as a thirdparty only after due consideration. This restriction does not apply if the adjustment takes effect after the member can terminate his or her membership in the OSADL eG.
